PROFIL

I am a motivated full stack developer with a solid foundation in both frontend and backend technologies. I have a passion for building efficient, user-friendly applications and a strong commitment to continuous learning and improvement. With a degree in full stack development and hands-on experience in developing web applications, I am eager to apply my skills in a professional environment and contribute to impactful projects

PROJECTS

Audiophile E-commerce

MERN | TAILWINDCSS

This full-stack e-commerce application includes user authentication with management secure tokens. It integrates a system of dynamic product management, a process of Custom payment and HTTP-only cookies to enhance security. This project demonstrates my full-stack and in-house development skills Implementation of security features advanced.

SPORTS CLUB

LARAVEL | MYSQL | BOOTSTRAP

This project, which is part of my full-stack developer degree, is a complete sports club management system. It allows club administrators to effectively manage activities and plans with CRUD operations. Members can also update their profiles easily.

Portfolio

REACT | TAILWINDCSS

My portfolio site is a dynamic showcase of my background as a web developer. It is a continuing project reflects my skills, my experiences and my creativity.
